QUALIFICATIONS FOR SERVICE:

I have been in service-related industry for as long as I can remember. But for me, anyone can do and offer a service. But the quality of service is what matters most, it's what sets one apart. Personally, I strive to go over and beyond expectation whether it's at work, community and family and when you know you have made a meaningful difference through what you do, only then you can really say, 'it's a job well done'.

PERSONAL INFORMATION

I am the founding director of an employment agency for foreign domestic helpers called Josie James Personnel which was established in the Year 2000 where our client portfolio consists of the private households of Fortune 500 CEOs, COOs, corporate lawyers, charity organizations, educational institutions, foreign embassies, among others.

I have been married for over 30 years. My husband and I are blessed with one daughter. She and her husband currently live in United Kingdom. I love travelling, especially in Europe where I can unravel its rich history and marvel at the massive and intricate architecture you see around you. I am hoping to explore more of old world civilization before I am really old and grey. And then, with clicking knee bones and joints, it's time to enjoy places closer to home and rediscover the beauty of my beloved Asia with its fascinating culture, food, lush greenery, beaches and amazing people.
